

WATER CONSERVATION

2025 Calendar

**Save water and save life
on Earth!**

–Gabriel Franco Grossini,
Grade 5

Stonewyck Elementary School
Teacher: Lizannette Tam
Principal: Lee Parker

A Student Art Program Sponsored by OUC

The Water Color Project is a water conservation-themed art project sponsored by OUC—The *Reliable* One. It is designed to help Orange County students learn about water conservation and appreciate the value of this natural resource.

The project includes a calendar art contest for elementary school students and a rain barrel painting contest for middle and high school students. As part of the project, students receive a lesson on water conservation and are then encouraged to share what they've learned through their artwork.

Over the past 18 years, more than 100 elementary schools and more than 30,000 fourth and fifth graders have participated in the annual calendar contest. More than 3,000 calendars are distributed each year.

We believe encouraging students at an early age to consider how we use our drinking water will result in environmentally conscious adults in the future.

Each school selects its six best entries for submission into the contest, and OUC employees choose 13 submissions overall.

We hope you enjoy this year's creative artwork and slogans, and remember, we can **"paint a brighter future through water conservation."**

For ways to save water and learn more about OUC's water conservation program, please visit ouc.com/water.

**Water is life,
treat it like royalty**
-Amorah Crawford,
Grade 5

Aloma Elementary School
Teacher: Amber Ballard
Principal: Eboni Montenegro
