

ELECTRIC LINE EXTENSION POLICY

The Orlando Utilities Commission (OUC) recognizes that its purpose is to furnish electric service to customers throughout its entire service area and the City of St. Cloud's service area but reserves the right to require payment when the additional distribution investment is not considered to be beneficial to the overall system or the request is for underground distribution facilities serving a commercial or multi-family residential customer. This contribution in aid of construction (CIAC) payment will be paid, in advance of material ordering and construction, by the party requesting the extension. In the event the project is cancelled prior to construction, OUC will refund the payment less any unrecoverable costs incurred by OUC.

It will be at OUC's discretion whether a customer will be given the option to install the duct bank system. The CIAC payment for the extension of Underground Distribution Facilities will be based on the following:

Offsite duct bank installation	Single family residential	Commercial/Multi-Family
Customer installed	No charge	\$30/kVA
OUC installed	No charge	\$113/kVA

In addition, the customer will pay **39%** of OUC's onsite cost for primary cable, splices, transformers, and any other equipment or materials necessary to provide electric service. Any equipment requested by the customer (such as automatic transfer switchgear, redundant transformers, etc...) that is in addition to OUC's design, if approved by OUC, will be 100% chargeable to the customer.

For residential subdivisions a **\$650** per lot CIAC payment will be required from the party requesting the extension in advance of material ordering and construction. Such CIAC payment will be refunded to the responsible party if at least 75 percent of the lots within the subdivision or subdivision phase are occupied (with active meters) within three (3) years of installation.

When more than 20 new electric services are requested within a 12-month period and the expected consumption for each new service is less than 100 kWh per month a **\$200** CIAC payment per service for all services over 20 within a 12-month period will be required in advance of material ordering and construction by the party requesting the extension(s). This payment is in addition to any other required CIAC payment.

This electric line extension policy will be used as a guideline for all line extensions. Exceptions to this policy can be approved by the Vice President of the Electric and Water Delivery Business Unit for line extensions determined to have significant strategic importance to the future of OUC.
